U.S. Department of the Interior U.S. Geological Survey

Map Separates 1:100,000-Scale Maps

- 1. Use this form to order color separates, feature separates, and composites of 1:100,000-scale maps.
- 2. Some feature separates are not available for all maps and only color separates may be purchased. Specify in the special instructions section of the reverse side if tint plates are to be excluded from the composite or ordered separately. Unless otherwise specified, standard USGS screens will be used.

The 1:100,000-scale metric maps are primarily for use as a base map and represent an area of 30-minutes by 1-degree.

3. Payment (check, money order, purchase order, Visa or MasterCard information, or Government account) must accompany order. Make all drafts payable to the Department of the Interior—USGS.

Customers outside the United States,

please send an international money order or check drawn on a U.S. bank in U.S. dollars. VISA or MasterCard may also be used.

- 4. Add \$9 for each additional color when composited. A list of color and feature separates and prices are shown on the reverse side of this form.
- 5. Call 1-800-USA-MAPS for the locations of Earth Science Information

Special instructions

Price

Cost for a single film of any 1:100,000-scale separate is \$46 each. Add \$9 for each additional color when composited. There is no additional cost for compositing feature separates of one color. A \$3.50 handling charge is applied for each order mailed.

Examples for figuring total price:

Three separates (three plates) of the 1:100,000-scale map:

Three color separates (composited on one plate) of the 1:100,000-scale map:
